GEORGE W. LAKE, CHARGES HIM WITH BEING THE FATHER OF HER CHILDREN-HIS DENIAL. Information was received, yesterday, by Captain Caffrey, of the First Precinct, that Nellie Lake, living at No. 919 State-st., was insone, and had attempted to commit suicide by jumping from a third-story window. An officer went to the house and found a young woman, with an infant eight days old. The woman appeared very weak and partially deranged, not having had any medical attendance or care in her illness. When she became caim, she said that she was the daughter of George Wilkins Lake, an importer of tens and Japan goods, at No. 1 Cedar-st., and that he was also the father of her two children, a girl two years old and the new-born infant. Lake went to the police station, and agreed to bear all necessary expense of removing the woman to the hospital and of securing good attendance. He was much excited, and his scenring good attendance. He was much excited, and his stories were at first incoherent and conflicting. He said to Sergeant Woodruff that Nellie Lake was the daughter of his divorced wife, but not his own child. Subsequently he stated that she was a girl he had educated and permitted to call him father. He was locked up on a charge of failing to register the birth of the child. The woman was taken first to the Chambers Sireet and then to the New-York Hospital, at both of which institutions she was denied admission. She was carried home again, and then taken to Believue Hospital, where she now is, in a semi-delirious condition.

admission. She was carried mine agow is, in a semidelirious condition.

Lake was taken before Justice Wandell at the Tombs,
where the charge of incest was not entertained, because the accusation of the woman was not
made in his presence. He was committed until
this morning, with instructions to have him confronted with the woman. When he was taken to
Bellevne Hospital, yesterday afternoon, Nellie Lake
violently assaulted one of the police officers. When
Lake came into the ward she fell back in silence, and
the physicians did not deem it prudent to tax her
strength any more, and Lake was taken back to
tho New Street Sintion. The police state that
Lake and this girl boarded at the Washington
Hotel, No. I Broadway, about two years ago and registered as George W. Lake and daughter. After remaining there sev ral months, it was discovered that the girl
was about to become a mother, and they were ordered
at Broadway and Beaver-st. and subsequently
moved to their present home on State-st.,
where they have lived as man and wife.
The story of the girl to the policeman yesterday, is that
Lake is her father, and that when he returned from a
business trip to Japan three years ago, he took her from
boarding-school near Boston, and that he has since lived
with her as a husband.

business trip to Japan three years ago, the has since lived with her as a husband.

Lake said to a Tribunz reporter last night: "This charge of incest is talse. In 1870 I married Lucy Jane Wilkins, at Tousfield, Mass. She had two children, the paternity of which I deny, I secured a Utah divorce from her and she such me for a divorce on the ground of desertion. She now lives with her father in Middleton, Mass. In 1869 I met Nellie Towns, a daughter of Moses Towns. She was a bright, pretty girl, ten years old. I took an interest in her, as she was deserted by her father, who claimed that she was dilegithmate. I put her in a boarding school at Boston. I went to Japan, and on my return in 1872 my troubles began with my wife. I ndopted Nellie. A few years see I brought her to this city and she has been my mistress. The cider child is mine. The one recently bern I do not believe to be mine, as while I was sick Nellie was in the habit of associating too freely with other men." Lake does not believe in employing physicians, as he says to have studied medicine and to have effected many remarkable cures. Nellie also has a strong antipathy to doctors.

a Bible, Book of Comman Prayer, hymnal, New Testament, ainmal reports of various charitable associations
of this city, a sermon by the Rev. Dr. Morgan Dix, several newspapers, and a silver dollar of the coinace of
1878. The Rev. Dr. Henry C. Potter, after congratulating his fellow-ministers on the procress of the institution, stepped into the street and addressed a few words
to the people assembled, asking them to encourage the
charity in their midst. A feast of strawberries was afterward spread for the children living near the House.

The building, when builshed, will be a substantial brick
edifice, 34 by S1 feet, and five stories high. It is to be
built by A. Hopper, at a cest of \$17,000, this expense
being defrayed by Mrs. John Jacob Astor. It will contain a chapel on the first floor; above will be readingrooms and bed-rooms for those whom the charity proposes to assist. To this House a working-woman may
take her children during the day and leave them in
charge of the Sisters while she is at work. The children
will be taught and fed; the mothers, if able, will be expected to pay five cents a day.

Hicks and Stewart, by their counsel, stated that in May, 1877, they entered into copartnership with Mr. Rosenberg for the purpose of manufacturing trousers; in January, 1873, noticing a loss of about \$14,000, they determined to wind up the business. Contrary to their request Mr. Rosenberg continued doing business, and in June, against his partners' wishes, sold the stock of goods in Cincinnati, worth about \$17,000. The partners here immediately suspended payment. The affairs were given into the nands of a committee of creditors. THE BUSHNELL DEFALCATION. It has not yet been discovered where William A. Bushnell, the defaulting bookkeeper of Butler, Stillman & Hubbard, has gone. William Allen Butler said yesterday that Bushnell was a man of quiet habits. It was now clear that he had stolen and hypothecated the \$50,000 bonds to speculate with, hoping to make money enough to redeem them. Mr. Butler said that the loss to him would be over \$30,000, Bushnell having raised all the money he could on the bonds. The matter is now in the hands of the detectives, and Mr. Butler thinks that it is only a question of time when Bushnell will he arrested and punished.

Miss Harriet Hosmer's statue of Zenobia was sold yesterday, together with the household effects of A. W. Griswold, at No. 415 Fifth-ave. There was little competition for it. The price paid was \$2,750, and the purchaser was J. P. Smith, who, it is understood on good authority, represented Mrs. A. T. Stewart. The statue was originally bought for \$7,500 from Miss Hosmer, who also received \$15,000 from its exhibition throughout the United States, after refusing an offer from the Prince of Wales of 2,000 guineas, on condition that it should not be exhibited.

The household furniture, consisting of rosswood, mahogany, etc., richly carved, and made by Marcotte and Herter, rich imported bronze chandeliers, satin hangings, etc., obtained fair prices. The enfire receipts were over \$7,000. Ex-Governor Morgan bought the house recently, and purchased many pieces of furniture by agents yesterday.

TERRORISM IN QUEBEC.

QUEBEC, June 11 .- Last night the strikers visited the workshops of the North Shore Railway Company, and, although assured that the employés were receiving more pay than was demanded by the strikers, they proceeded—owing to the refusal of the foreman to sign a paper to that effect—to demolish the windows and doors, while some of their number attempted to carry away a quantity of brass and other materials. After doing considerable damage, and driving away the employés, the crowd marched off. The strikers next surrounded Pare's match splint factory, on the River St. Charles, and on Mr. Pare refusing to sign a decument they presented to him, they closed the establishment, causing the greatest consternation among the female and other employés of the factory. To-day the strikers forced the employés of almost all the factories in the city to abstain from work. ited the workshops of the North Shore Railway Company,

SUICIDE BY STRYCHNINE.

UNEXPLAINED DEATH OF LUCIEN LEVYS BY POISON ADMINISTERED BY HIMSELF.

report was received at the Thirty-fifth Street Police Station, about 9 p. m. yesterday, that Lucien Levys, a French Hebrew, thirty-eight years of age, residing at No. 216 East Thirty-third-it., had committed suicide by taking strychnine. Levys was a mitted suicide by taking strychine. Levys was a travelling salesman, and at the time of his death had been married only one week. His wife was absent from home all day yesterday. Returning in the evening, and not finding her husband down stairs, she went to his room, and was horrified to find him lying dead on the hed. A note on a stand stated that he had taken strychines at 3 o'clock in the afternoon, requested that the Coroner should not make a post-mortem examination of his body, and asked the members of the family to keep the matter from the public. At the house the members of the family were very resteent and refused admittance to every one; even the officer sent to investigate the case was demied admitance. They state that both Levys and his wife were of highly respectable families, and that it was a terrible blow to them.

Levys was a dealer in carpet-bags, at No. 647 Broadway. His wife denied last night that any domestic trouble had caused the suicide. In his note to the Coroner, Levys gave becuniary embarassment as the cause. His wife said bitterly: "He made a confidant of no one."

COMBINING INFERIOR COURTS.

THE BAR ASSOCIATION FAVORS THE CONSOLIDATION OF THE MARINE AND DISTRICT COURTS-ALSO A NATIONAL BANKRUPTCY LAW.

The Bar Association held its last monthly eting for the senson last evening, with a full attend ance. Resolutions offcred by Charles Price, looking to banges in the inferior courts of the city, were unani These resolutions stated, in substance, that the system

mously adopted.

These resolutions stated, in substance, that the system and practice of the inferior courts need a modification. The District and Civil Justices' Courts have long survived the purpose for which they were instituted. Much of the litization especially belonging to the jurisdiction of the District Courts, study is twy to the Marine Court, and, with the extended jurisdiction of that Court, throws upon it a large amount of business. There are ten District and Civil Court Justices scattered over the city, and six Marine Court Justices, a force numerically as large as that of the Supreme, Common Picas and Superior Courts. The expense of the District Courts is as large, if not larger than that required for either of the Supreme, Common Picas and Superior Courts. The expense of the District Courts is as large, if not larger than that required for either of the Superior Courts, and that of the Marline Court is little less. By consolidating both, with a system land practice embracing the elements of both and adapted to the requirements of such a tribunal for the prompt and efficient determination of matters belonging to it, a much needed reform would be wrought.

David S. Riddle offered a resolution, which was referred to the Committee on Amandment of the Laws, that a special committee on Amandment of the Laws, that a special committee of bankruptcy, which shall contain general provisions upon the rights and remedies of both depters and creditors, so as to secure that substantial uniformity contemplated by the Constitution of

## TESTIMONY OF AN OLD AND WELL-KNOWN FIRM. "An experience of many years has demonstrated to us the good value and

benefit derived from carefully prepared and properly displayed advertisements in well-established influential newspapers. John Duncan's Sons,

Sole Agents for Lea & Perrins' Worcestershire Sauce.

THE WHEELER & WILSON SEWING MACHINE COMPANY state:

"In no department of business is there probably so much money wasted as in advertising, and in no department are good judgment and experience more requisite. Twenty-five years' experience has clearly demonstrated the superior advantages and economy of newspaper advertising over all other mediums offered for that purpose." "ADVERTISE LARGELY IN FIRST-CLASS NEWSPAPERS."

A Twenty-Five Years' experience endorsing Newspaper Advertising.

Messrs. Ehrich & Co., the popular Dry Goods firm, say: "Have what the

public want. Sell it with a moderate profit. Advertise largely in First-CLASS NEWSPAPERS, and you are bound to do a trade. Let the Newspapers BE THE BEST YOU CAN OBTAIN, no matter what the cost. It is but natural that an Advertiser must, in a degree, share in, and thereby gain from, the respect which a reader entertains for an ably-conducted journal."

Another Endorsement based on an Experience of Forty-Seven Years. Messrs. Isaac Smith's Son & Co., the well-known Umbrella house, express

themselves as follows on the value of Newspaper advertising:
"If what you have to say be strictly true, say it in a good newspaper. Its readers are intelligent, will appreciate a bargain, and of every such customer you make an advertiser. For forty-seven years nine-tenths of our advertising has been done on this plan, and of the whole expenditure, all that we regret

is contained in the other tenth." OVER FIFTY YEARS ESTABLISHED.

"Enterprising business people recognize the necessity of a proper expenditure in advertising as indispensable to success. Well written, truthful announcements, properly displayed, bring sure returns. Established over fifty years, we have largely tried the varied plans for advertising, and our experience leads us to the conclusion, that the regular and persistent use of influential and well established journals, is the most satisfactory way to reach the public."
